## V. C. FRENCH IS ACQUITTED

**The Charge of Criminal Libel Against the Editor of This Paper Not Proceeded With.**

When the case Rex vs. French was called at the sitting of the Supreme Court, which commenced here on Tuesday last, Mr. W. H. Odell, crown prosecutor, stated that Alexander Knox, the plaintiff, had decided not to proceed with the case. In consequence of this the defendant is entirely cleared of the heinous crime he is supposed to have committed.

The article in question was published in the issue of The Wetaskiwin Times of August 29, 1912, under the heading "Is City Treasury Intact?" which referred to the hasty departure of Alex. Knox from the city and the rumors of his dishonesty.

In the failure of the prosecutor to proceed with the case, it is virtually admitted that the editor of The Times was justified in publishing the article in question, and that he is now honourably acquitted of any wrongdoing in connection with the publication referred to.

## Council Proceedings

**City Fathers Have Busy Session Tuesday Evening.**

The regular meeting of the City Council was held on Tuesday evening, with all the members present.

After the adoption of the minutes of the previous meeting, Mr. Roberts, returning officer, gave the result of the recent election and announced that W. Dudgeon had been elected. Mayor Walker then briefly welcomed Mr. Dudgeon to the board and hoped that the same amicable conditions which had prevailed on the council, would be continued. He also hoped that there would be no more elections this year, as it interfered with the general work of the Board.

Ald. Dudgeon thanks his worship of the kindly remarks and expressed the wish that work would be carried on expeditiously and in a friendly manner.

It was decided not to join the Union of Canadian Municipalities.

W. F. O'Connell, City engineer, presented his report to the water works and sewers department for the year 1912. This was read and filed.

Joe Spencer tendered his resignation as City treasurer to take effect April 1st. This was accepted, and the matter of securing a successor was left with fire and water committee.

Mayor Walker then submitted a new draft of the committees, which placed Ald. Dudgeon as chairman of the police, market and license and a member of fire and water, and cemetery and parks committees, while Ald. Wallace was given the chairman ship of the electric light committee. This draft did not meet with the approval of Ald. Enman, who thought that Ald. Dudgeon should be appointed chairman of the electric light committee, as he had previous experience and the changes suggested by his worship would disarrange the present working of the board. He moved, seconded by Ald. Gross, that committees remain as they were struck the first of the year with the exception, that the name of Ald. Dudgeon replace that of Ald. Watson on all committees on which the latter served. The motion was carried, the vote being: Ayo. Ald. Enman, Gross, Ellis and Wallace; Nay: Ald. Gotthard and Mayor Walker.

The motion was carried, the vote being: Ayo. Ald. Enman, Gross, Ellis and Wallace; Nay: Ald. Gotthard and Mayor Walker.

Meeting adjourned.

Mr. Nelson, Inspector of Schools, would be pleased if all Secretaries of school districts wishing teachers after Easter would communicate with him as soon as possible.

The Fourth Annual Convention of the Alberta Educational Association will be held in First Presbyterian Church, Fifth Street, Edmonton, Tuesday, Wednesday and Thursday, March 25, 26, 27, 1913.

## Town Topics

**GIRL WANTED**—At once for small family, highly wages. Apply to Box A, Wetaskiwin. 51-4a.

**TO RENT**—Eighty acres immediately adjoining the City. Comfortable dwelling house and good building. For terms and particulars apply to E. D. H. Wilkins, Solicitor, Wetaskiwin.

**FOR EXCHANGE**—For farm land in good subdivisions in Edmonton, close to new gas well. Small balance to be assumed. Give full particulars. P. O. Box 1297, Edmonton. 51-4a.

**TO EXCHANGE**—One Peace St. lot, three landown street lots and one lot with house and barn on Stanley Street to exchange for work here. Apply to Medallion Box 175, Sinclair St. Edmonton. 51-4a.

**WANTED FOR CASH**—A few good young milk cows, to be fresh in March or April. Also some young calves—H. D. Bentley, Box 318, Wetaskiwin, 4 miles N. E. 51-4a.

**JUDICIAL SALE OF FARM PROPERTY NEAR WETASKIWIN, ALBERTA.**

Pursuant to the judgment and final order for sale, there will be sold, at the approval of a Judge of the Supreme Court of Alberta, by Geo. L. Owen, Auctioneer, at his office in the City of Wetaskiwin, in the Province of Alberta, on Saturday the 28th day of March, 1913, at 10:00 a.m., the South Half of Section Ten (10), and the North Half of Section Three (3), and the North Half Section Four (4), all in Township Forty-five (45), in Range Twenty-one (21), West of the Fourth Meridian in the Province of Alberta.

On this land there are One Hundred and Sixty (160) acres under cultivation, Five Hundred (500) Acres of arable land, Two Hundred and Sixty (260) Acres of scrub, and Forty (40) Acres of low land.

There are the following buildings on the land:

(1) A house, log and frame with a shingle roof, 16x24.

(2) A shanty, log and frame with a shingle roof, 24x30.

(3) A stable, frame with a shingle roof, 30x50.

This property is situated from Half (1/2) to one mile (1 mi.) from the station of New Norway on the Grand Trunk Pacific Railway Branch. The district is well settled. The soil is black loam with a clay subsoil and well adapted for general farming. The water supply is obtained from two flowing wells.

The property will be sold subject to the usual bid. The terms of payment will be \$10 per cent cash on the day of sale and the balance within 60 days without interest. Other terms and conditions are the standing condition of the Court.

Further particulars may be had from Geo. L. Owen, O'Connor & Co., Solicitors of Edmonton, Alberta.

(Signed) ALEX. TAYLOR, C. S. C.

**NOTICE TO CREDITORS IN THE MATTER OF THE FARMER'S CO-OPERATIVE STORES, LIMITED, INSOLVENT.**

Notice is hereby given in pursuance to the Assignment's Act for Alberta, that the Farmer's Co-Operative Stores, Limited, a corporate body with its Head Office at Wetaskiwin, in the Province of Alberta, and operating General Stores at Wetaskiwin, Grynau, Malm, Millet, Daysland and Calgary, all of said Province of Alberta, has this 1st day of March 1913, made an Assignment to us of its Estate for the benefit of its Creditors.

The Creditors are hereby notified to meet at the Office of L. E. & R. McNeil, Wetaskiwin, Alta., at 3:00 p.m. on Saturday March 15th, 1913, for the purpose of receiving a statement of affairs of the above named insolvent, for the appointment of Inspectors and giving of directions with reference to the disposal of the estate.

Every Creditor or person claiming to be entitled to rank on the estate assigned is required to deliver or send proof of all said claims, in writing, to the Assignee on or before April 4th, 1913, particularly of his claim, verified by affidavit and such vouchers as the nature of the case demands, and stating whether he holds any security for his claim or any part thereof, and putting a specified value on such security (if any) in accordance with the said Act.

DATED at Calgary this 8th day of March, 1913.

**THE CANADIAN CREDIT MEN'S ASSOCIATION, LIMITED.**  
C. L. CARTER, Sec.-Treasurer, Calgary, Alta.

**LOGGIE & MANLEY.**  
Wetaskiwin, Alta.  
Solicitors for the said estate

## RHEUMATISM KEPT HIM IN BED

Suffered Tortures Until "Fruit-a-lives" Cured Him

McMILLAN'S CORNER, ONT.

SUPP. 30th, 1910  
"Fruit-a-lives" is a perfect panacea for Rheumatism. For years, I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did no good. Plasters took no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but fortunately, about two years ago, I got "Fruit-a-lives" and they cured me.

Since then, I take "Fruit-a-lives" occasionally to keep free of pain. I am satisfied "Fruit-a-lives" cured me of Rheumatism and they will cure anyone who takes them as directed. If this letter would be of value to you, please write to JOHN B. McDONALD, 1010 St. John St., Montreal, P. Q. I will send you a copy of the book "Fruit-a-lives" and the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. 50¢ a box, 6 for \$2.50, retail, 35¢. At dealers or from Fruit-a-lives Limited, Ottawa.

## BE SURE YOUR SEED IS PURE

Calgary, March 10th, 1913

This is the season when farmers are securing their seed supply for the coming spring. The importance of using seed of high vitality and free from weed seeds cannot be too strongly emphasized. Very often in the past, farmers, through ignorance of the quality of the seed they were using or for some other reason, have sown weed seeds.

During the past few years the Dominion Seed Branch has been endeavoring to effect improvement in the seed trade by educational work with farmers and seed dealers, supplemented by the enforcement of the Seed Control Act. This Act defines the commercial grades of seeds. All things, red clover, alfalfa and alfalfa seed offered for sale by either wholesaler or retail merchant must be graded and marked: Extra No. 1, No. 2, or No. 3, according to quality. Seed that will not grade No. 3 cannot legally be sold except for export or for cleaning. This latter clause applies to farmers as well as seed dealers. Farmers selling seed that is below grade No. 3 to their neighbors, for seedling or to dealers on the understanding that it is to be re-bagged for sowing without retesting, are liable to prosecution, and every effort will be made to apply to the Act to Farmers as strictly as to Seed Merchants.

Payer packets of vegetable and flower seed must be marked, showing the year in which they were filled and farmers and others purchasing such seed should see that all packets are marked before purchasing.

Seed grain, clover and grass seed, as well as root and vegetable seeds, whether in sealed packets or in bulk, must be capable of germinating in the proportion of at least two thirds of the legal Standard for good seed of the kind. Seed that will not germinate in this proportion must be plainly marked showing the actual percentage of seeds capable of germinating. Farmers, having, or purchasing seed, the vitality of which they have reason to suspect, should have a germination test made of a sample of it.

Seed grain, clover and grass seed, as well as root and vegetable seeds, whether in sealed packets or in bulk, must be capable of germinating in the proportion of at least two thirds of the legal Standard for good seed of the kind. Seed that will not germinate in this proportion must be plainly marked showing the actual percentage of seeds capable of germinating. Farmers, having, or purchasing seed, the vitality of which they have reason to suspect, should have a germination test made of a sample of it.

A. D. Campbell, Inspector for Alberta and British Columbia.

## ELEVATOR SYSTEM POSTPONED

No legislation dealing with the elevator co-operative system will be introduced into the legislature by the Hon. Charles Stewart, minister of municipalities, until the farmers can come to some agreement among themselves. This is the purpose of the official ultimatum.

The Grain Growers' Grain Company is the stumbling block and the farmers of the province are at present at variance over the financing and control of the elevator system. An amicable settlement is, however, expected shortly and the important legislation proposed will be introduced.

## Alberta Insurance Act

That the general insurance act for Alberta will be passed if not at this session of the legislature at the next, was foreshadowed at the meeting of the private bills committee of the legislature the other day. A large number of fire insurance companies are now doing business in Alberta. While foreign companies come under Dominion regulations, provincial companies holding provincial charters are not so regulated. Provincial insurance acts are in force in each of the other provinces.

Last year an act was passed permitting hail insurance companies to do business in Alberta, and three companies have been operating under the act. As protection for the insured, the government requires a deposit from all hail insurance companies of \$10,000. No deposit is required from fire and other insurance companies.

Hon. Malcolm McKenzie, provincial treasurer, states that while the government has no present intentions of introducing a general provincial insurance act this session, the necessary protection could be afforded by making the deposits required in the case of hail insurance companies and making it binding upon all insurance companies.

## Edson Fire Loss Will Total \$150,000; Business Section a Charred Ruin

Edmonton, Alta., March 10.—The three men who were injured in the explosion at Edson on Saturday night, when an attempt to dynamite certain buildings to prevent the spread of the fire resulted in a premature explosion, are reported to be resting easily at the General hospital, where they were brought at 8 o'clock Sunday morning. The three men injured were Albert Suck, fire chief; Jack Seiders, a railway man, and John McLeod, all of whom were burnt severely about the face and hands. A man named Delaney was burned and cut with glass at an earlier stage of the fire, and may have injuries which are more serious than at first thought. He is being taken care of at Edson, the doctor thinking it not advisable to have the man removed to Edmonton in his present condition.

The blaze, which originated from a gasoline explosion, involves a loss of \$150,000, and the wiping out of the business section of the town.

## 20,000,000 Bushels in Southern Alberta

Lethbridge, March 8.—Figures compiled by W. D. Finley, secretary of the Associated Boards of Trade of Southern Alberta, from thirty-six shipping points indicate that 5,340 carloads of all grains have been shipped out of Southern Alberta this season while it is estimated there are 2,350 carloads yet to be shipped. The statistics show last fall's crop as 20,000,000 bushels.

A religious census for 1911 shows Roman Catholics leading in Canada with 2,833,041 members, and Presbyterians second with 1,115,324.

The foot record between here and Edmonton is now held by Dick, a greyhound, owned by Oscar Monahan, clerk at the Leland hotel. Dick did the distance, about 18 miles, in 39 minutes on Saturday, being paced by the afternoon train. Dick's intention was not so much to break records as to follow Andrew Linker who was on the train and brought the dog back with him on the midnight—Leduc Representative.

## A SIMPLE TREATMENT THAT WILL MAKE HAIR GROW

NOW SOLD IN CANADA

Every up-to-date woman should have radiant hair.

There are thousands of women with harsh, faded, characterless hair, who do not try to improve it. In England and Paris, women take pride in having beautiful hair. Every Canadian woman can have lustrous and luxuriant hair by using SALVIA.

The Great American Sage Hair Tonic. Every reader of the Wetaskiwin Times can have an attractive head of hair in a few weeks by using SALVIA. Walters Pharmacy sells a large bottle for 50 cents and guarantees it to banish dandruff, stop falling hair and itching scalp in ten days, or money back.

SALVIA is a beautiful, pleasant non-sticky Hair Tonic.

## Do you Believe

in going straight to the worst spot in treating disease? If so, you will never use anything but Peps for coughs, colds, bronchitis, and throat and lung troubles. Listen why!

Peps are tiny tablets, which contain rich medicinal ingredients, so prepared that they turn into vapour in the mouth, and are breathed down to the throat, the breathing tubes and lungs direct.

Tough mixtures go—not to the lungs and chest at all, but to the stomach. There is absolutely no direct connection between stomach and lungs. When you have a bad cold, your digestion is broken down. You lose weight, and if a man, your usual smoke does not "take good." In other words, your digestive system is lacking. All rough mixtures make this condition worse.

Don't ruin your stomach to heal your lungs. Take a remedy that goes right to the spot—Peps.

Surprising how they end coughs, catarrh, bronchitis, sore-throat, "croupy" man's throat, asthma, and all lung troubles. Contains no poison, and are best for children.

Dr. Gordon Stables says:—"If you wish to ease and end a cough, if you desire to loosen sticking phlegm, and clear the throat and the breathing tubes, use Peps. The pine fungus and balsamic fumes, so beneficial in throat and lung trouble, which are liberated when a Peps is put into the mouth, also serve another good purpose. They strongly germicidal, and germs of disease in the mouth, on the pharynx, in the throat, and in the breathing tubes, are at once destroyed by their action."

Have you tried this famous remedy? If not, cut out this article, write across it the name and date of this paper, and mail it (with 10¢ stamp to pay return postage) to Peps Co., Toronto. A free trial packet will then be sent you. All drug stores and stores sell Peps at 50¢ a box.

**PEPS**

## LIBERALS MAKING GREAT FIGHT

Ottawa, March 8.—At midnight tonight Parliament adjourned after 109 hours of continuous sitting, broken only by dinner hour at 6 p. m. Only twice in Canadian history has this occurred. Both issues have been great constitutional ones. In 1896, the Liberals held the house from Monday until Saturday evening in a memorable struggle over the remedial bill, when they talked the "Tory" government out of office. Seventeen years later the Liberals again held the house continuously in session for the same period on the traditional principle of self-government, the nation within the empire, as against a reversion to colony status and centralization, which the Liberals claim have been raised by the Borden government in its proposals to inaugurate a Canadian Naval policy by contribution.

### GATHERING OF TEACHERS

Seven hundred school teachers from all part of Alberta will attend the fourth annual convention of the Provincial Educational Association in Edmonton, March 24-26. The superintendent of the association has announced that there will be two sessions daily and one or two evenings when prominent educators will speak upon themes of interest to the teachers and the public.

### NEVER NEGLECT A HEADACHE.

Headache is not a disease in itself, but is often a source of great suffering, and its presence is likely symptomatic of some disease lurking in the system.  
To get rid of the headache, and thus prevent more serious troubles, it is absolutely necessary to cleanse the system of all waste and poisonous matter, and keep the bowels well open, the clogging of the bowels being one of the principal causes of headache. Burdock Blood Bitters regulates the bowels, and makes their movement free and natural. A cure for headache, a medicine that cures where others fail.  
Mrs. L. Banks, Mt. Hawley, N.S., writes: "Several years ago I was a constant sufferer from headache. I was all run down, and nothing seemed to do me any good. I read of Burdock Blood Bitters, and decided to give it a trial. The result was marvelous, the headache stopped entirely, and I feel better in every way. I can safely recommend B.B.B."

## Town Topics

B. W. Day, of Dayland, Alta., has given sixty acres of land to that town for park and exhibition purposes exclusively, the only other provision being that a sign "Ansley Park" be kept over the main gateway.

New 1912 towns were Bow Island, Diamond City, Coronation, Redhill and Staveland, while villages incorporated were Olive, Walsh, Three Hills, Coalville, Mirror, Carbon, Haultain, St. Paul des Metis, Salford, and Consort.

Hogs are gradually working higher and higher on the Chicago market, 9 cent hogs being expected again early next week. Cattle are also expected to remain their last ground of the last two months as soon as the marketing of plain stuff during the winter months tapers off.

By virtue of the Theatres' Act, which came into force in the province of Alberta on the 12th of February, all films for moving picture shows must bear the stamp of a board of censors, and it is the duty of the town constables to inspect these films to see that they are in conformity with the law.

C. A. Cameron, principal of our school, has just been advised that the Dayland School has been awarded first prize in the Wetaskiwin Imperial District for the year 1912, under the scheme for Physical Training provided by the Strathcona Trust.

John Bull puts up with a lot, but his patience must be about at an end with regard to outrages by suffragettes. It is to be feared that but little sympathy would be extended should a few of them be allowed to end a miserable existence by starvation in prison when they refuse to eat their latest tricks to annoy chaps who come home late—half-shot.

### NIGHTINGALE COLONY.

Canadian Pacific Railway's Big Role for British Settlers Only.  
Five thousand Canadians have crossed the Atlantic to spend Christmas in Great Britain. Among them, Mr. J. S. Dennis, of Calgary, Alberta, a Canadian by birth, but of Irish extraction, who occupies a remarkable position in Western Canada, since he is in charge of an estate almost as large as Wales. This estate is in the provinces of Alberta and British Columbia, and is owned by the Canadian Pacific Railway, which in addition to being a railway, is also the largest landowner in the British Empire.

In the corner of Mr. Dennis's estate is a block of land, three million acres in size, on which an irrigation system is being constructed containing three thousand miles of canals. A new town comes into existence on this estate every third day. But what interests Mr. Dennis most of all at present is the ready-made farm scheme which Sir Thomas Shaughnessy, the president of the railway, has inaugurated for the benefit of British settlers in Western Canada. Until this scheme was introduced the settler on the western prairie had to live in a constant fear of many inconveniences till his house was built.  
Quite a number of his first year, was wasted in preparing his farm for occupation. But now the railway is preparing ready-made farms, with house and barn built, with the fences made, the well dug, and the ground ready for the plow. Settlers in two parties of settlers under this scheme will leave for Canada next March. There will be four late, and Mr. Dennis will make the final selection of the applicants for these farms, and will make arrangements for a very much larger number in the following year.

The Canadian Pacific Railway is spending \$5,000,000 upon this scheme to start with, and if it proves successful will spend many millions more. It is reserved at present for British settlers only, and these settlers must be married men with a capital of \$1,000 upwards. The farms are paid for in ten yearly instalments, and if through no fault of the farmers the crop is a poor one the payment for that year is remitted.

The first colony under this scheme was settled last spring, and has proved a great success. It is called "Nightingale" after the late Florence Nightingale—Nurse of the World.

**Beating and Feeding.**  
The average man takes five and a half pounds of food and drink each day, amounting to a ton of solid food and liquid nourishment annually. In seventy years he eats and drinks 1,000 times his own weight.

**Eating Aristotle.**  
The practice of eating Aristotle is very common among persons in the mountainous districts of Hungary and France. They claim that the poison enables them to ascend great heights without experiencing any difficulty in breathing.

**Diamond Test.**  
There is a very easy and simple way to tell if a diamond is genuine, says an expert. Make a small dot on a piece of paper with a lead pencil and look at it through the diamond. If it shows but a single dot, the diamond is genuine. If it shows more than one or the mark appears scattered, it is false.

**Italian Cigars.**  
Italian cigars look like Pittsburgh shingles, with bits of straw sticking out of them.

### For Dyspepsia

If you suffer Stomach Trouble, and you try our remedy, it won't cost you a cent if it fails.

To prove to you that indigestion and dyspepsia can be thoroughly relieved, and that Recall Dyspepsia Tablets will do it, we will furnish the medicine absolutely free if it fails to give you satisfaction.

The remarkable success of Recall Dyspepsia Tablets is due to the high degree of scientific skill used in devising their formula as well as to the care exercised in their manufacture, whereby the well-known properties of Bismuth-Subnitrate and Pepsin have been properly combined with Carminatives and other agents.

Bismuth-Subnitrate and Pepsin are constantly employed and recognized by the entire medical profession as invaluable in the treatment of indigestion and dyspepsia. Their proper combination makes a remedy invaluable for stomach relief.

We are so certain that there is nothing so good for stomach ills as Recall Dyspepsia Tablets that we want you to try them at our risk. Three boxes, 50 cents, 10 cents and \$1.00. You can buy Recall Dyspepsia Tablets in this community only at our store.

Kaiser Sent Up for Trial.

A very interesting case was heard at the police court on Monday of this week, when Adam Kaiser was charged with setting fire to two hay stacks belonging to Andrew Seher, a neighbor. The evidence was taken by Inspector Ravens, of the R. N. W. M. P., and the court room was crowded all the time the case was in progress. Several witnesses were examined and it was brought out in evidence that a pony owned by Kaiser was tracked from the scene of the fire to the stable, this being done on account of one of the shoes having a cork missing. After hearing the evidence the accused was sent up for trial, being allowed out on \$10,000 bail.

### CARD OF THANKS

D. L. Bala wishes through the columns of The Times to thank all those who voted for him and used their influence in his behalf at the election for alderman on Wednesday of last week.

### CITIZENS' BAND

## Sunday School Lesson

By EVANGELINE

### THE TEST ABRAHAM'S FAITH

March 10th, Gen. 22:1-19.

Golden Text.—"By faith Abraham being tried offered up Isaac."

Let us imagine that we have "passed the shadow" and that "in Immanuel's name" Abraham is relating to us the incident which forms our lesson.

"I was living in Beer-sheba at the time and had retired to a secluded spot to be alone with God. My soul, which had been yearning for Him, soon became thrilled with responsive ecstasy at the consciousness of His presence when Isaac passed. As my eyes rested upon him I said: 'This is Thy child of promise in whom all my hopes and Thy promises are bound up together. He was then just twenty-five.'

Then there flashed into my mind this thought—Do I love Isaac more than I love God? Do I love my God less than the heathen love their gods? They sacrifice all that is sweetest and best in life. Yes, even give up their own children as sacrifices to their false gods.

"Take now thy son, thy only son, whom thou lovest, even Isaac and get him into the land of Moriah and offer him there for a burnt offering upon one of the mountains which I will tell thee of."

A deep groan came from my innermost being as I sank to the ground with my face in the dust before God. Consternation had gained complete mastery over me. Bawled out loud and held of me, I could not speak. I could not think. The thumping of a heart gone wild seemed to break the awful stillness of the place.

"How can I describe the conflict that raged within me," he continues. "One moment I viewed the matter from the standpoint of reason. Can it be the voice of God bidding me to commit an act which would render it impossible for Him to fulfill His promise? Can it be that a merciful, loving God would deprive me in my old age of the greatest joy and comfort of my life? Can it be that after making protest for many years against human sacrifices that these heathen will regard such an act as a grave inconsistency on my part?"

Then I viewed the matter from the standpoint of faith. If God has performed a miracle to bring my boy into being He could perform another miracle if necessary to raise him from the dead if offered as a burnt offering at the command of God.

What a night it was! How I pined to and fro waiting for the dawn and wondering. I crept to the bedside of my boy as he lay in the moonlight unconscious of the fearful doom awaiting him.

If all the love of all the loving hearts in all the world could be added together and multiplied by infinity it would give but a faint idea of the love that poured forth from my heart to my child that night, and it was but a faint shadow of the love that gave a son to suffer and die for a lost world.

We left early next morning for the land of Moriah, taking with us two men servants, an ass and the wood for the sacrifice. After travelling three days we left the servants to take care of the ass and before doing so told them that the lad and I will worship

and

THAT WE WOULD

COME AGAIN TO THEM

As we climbed the mount, Isaac carried the wood, and I carried the censer with the fire, and the knife. Then for the first time came the dreaded question.

"My father," he said, "Behold the fire and the wood but where is the lamb for the burnt offering?"

I could hardly utter a word. For a moment the horror of it staggered me. I reeled and almost fell and then faith came to the rescue and I replied—

"God will provide himself a lamb for the burnt offering my son." So we went on together till we came to the place which God had told me of and I build the altar there, and laid the wood in order, and bound Isaac, who submitted without a struggle when it was revealed to him that it was the will of God. With a heart beating quick hammer strokes I reached for the knife. I was terror-stricken, like one in a nightmare, unable to speak when the angel of the Lord called to me out of heaven and said, "Abraham Abraham!"

And I said, "Here am I."

And he said, "Lay not thy hand on the lad for now I know that thou fearest God, seeing that thou hast not withheld thy son, thine only son from Me. And now I know that thou art in the thick of his horns so I will the man and offered it up for a burnt offering instead of Isaac."

Those who put God before all and above all are taken into His secret Councils.

His unswerving devotion to God, his implicit confidence in Him, his unquestioning obedience had drawn from God the deepest secret of His heart—that from Isaac would come One who would be the universal center of blessing.

Wherever Christ has been received and relied upon blessing in every sense of the word has followed.

### WEEDS IN ALBERTA

According to an article in the February number of Conservation noxious weeds are increasing at an alarming rate in Alberta. Of one hundred farms surveyed in 1910 three per cent. were reported as having wild oats and none as having stinkweed. Thirty-one per cent of the same farms had wild oats in 1911 and less than five per cent. had stinkweed. In 1912 eighty-two per cent had wild oats and twenty-two per cent had stinkweed. In 1911 less than five per cent reported Canada thistle, while twenty-seven per cent report it in 1912. Surely it is time for some really serious work to be done toward checking the enormous waste caused by weeds.

### MUCH LEGISLATION

#### FOR THE FARMERS

Edmonton, Alta., Mar. 10.—Bills providing for the establishment of co-operative elevators, co-operative trading associations, agricultural schools, consolidated schools in rural districts, acts for the introduction of direct legislation, farm machinery bill, and a bill for the protection of persons employed on buildings and excavations forming a large part of the public legislation of the present session, were tabled in the legislature to-day. The bills were read the first time last week, and were down for second reading to-day, but as the bills were only tabled shortly before the house opened at four o'clock in the afternoon, the opposition were not prepared to discuss them, and on the request of Mr. Michener the second reading of the bills was postponed.

While the last session of the legislature was perhaps a notable one in the encouragement for the building of railways in all parts of the province under the provincial guarantee system, the present session is without doubt the farmers' session.

The South African possessions of England require 100,000,000 postage stamps per annum.

**DIAMONDS SET IN SHOES.**

Golden Shoes, Too, Were Worn by Dames of Ancient Rome.

The boots of Roman emperors were enriched with pearls and diamonds, and the wealthy Romans sported the like decorations. There were Roman women who ornamented their low shoes with pearls and diamonds, gold and amber. There were many whose boots were of massive gold. Pliny, speaking of his own time, says: "Our ladies are not content to adorn their walking shoes alone with precious stones, but jewels, but even the slippers which they wear in their private apartments are decorated. Precious stones do not suffice. They must, to be in fashion, tread on pearls and crowd their feet with ornaments like kings." Julius Caesar wore high boots worked in gold and ornamented with pearls.

Religulous, who never wore a pair of boots more than once, as he never wore the same ring twice, had precious stones set in them, and even emeralds, which excited the laughter of the populace because no one could see distinctly the cunning work of famous artists. But his mother, who presided over a senate of women, forbade women to wear shoes adorned with precious stones, as she prescribed the dresses that should be worn, yet she was a woman of wildly free life, in comparison with whom the Empress Messalina was a timid prude.

Melchisedech invented a boot that was named after him and became an inviolate, but we are not told whether it was luxuriously lapped. What were the Egyptian shoes that Cleopatra refused to wear, thinking them offensive, although he admitted they were comfortable? Anglo-Saxon princes and dignitaries of the church were shoes set off with gold. Charlemagne on state occasions donned shoes adorned with gems. The shoes of Henry VI. of Sicily and his queen, Constance, were of cloth of gold and jeweled, while the soles of hers were covered with cloth of gold.

Philip Stables in 1553 invented against the "coated shoes, pointed, pantofles and slippers, some of them of black velvet, some of green and some of yellow, some of Spanish leather and some of English, adorned with silk and embroidered with gold and silver all over the foot with gossamer's immemorial."

**An Unexpected Testimonial.**

Little Biddison prided himself upon his good appetite and his capacity for eating. He was dining with a friend a few nights ago and did his best to keep his host and his hostess, his "six-year-old" daughter, amused and at the same time managed to do ample justice to the good things provided.

"Oh, dear, Mr. Biddison," remarked the little one after the guests' withdrawal, "I wish you'd come here to dinner every day."

"Do you, dear?" he smiled. "Why?"

"Cause," came the reply, "the observant maiden glanced around the table. "Cause there wouldn't be anything cold to eat the next day."

—London Tit-Bits.

**How Dew Forms.**

Dew was formerly supposed to fall softly from the heavens, and to this belief may be ascribed many curious and poetical phrases, but dew does not fall in the exact meaning of the term. The condensation of watery vapor follows upon the chilling of the air. This is seen as the earth cools toward night, and it takes place most rapidly near the ground. Grass and other vegetation cool more rapidly than the air above them. The air in contact with plants is thus chilled and deposits its moisture upon the leaves of the plants in dew. When the chilling of the air proceeds further the moisture may be precipitated to a considerable height above the earth's surface, and it then becomes what we call fog.

**A Cold, Hard Snub.**

"Excuse me, madam," he said, "but you're a realer in the theatre art after the theatre the other night, you were kind enough to notice me."

"I did not," she replied, "in supposing that your interest was—altogether."

"Oh, no, I don't at all. I remember now. I thought for a moment that you were the coachman my husband discharged a few weeks ago for trying to make love to the cook, and I wondered how you could afford to eat in such an expensive place."

**A Soft Answer.**

"Tommy," exclaimed the mother, reproachfully, "you've been fighting again."

"I couldn't help it, mamma. That Bob Jones insulted me," replied the boy.

"That was no reason for fighting," said the mother. "You should have remembered that a soft answer turns away wrath and given him a soft answer."

"I did," replied the boy. "I hit him with a chunk of mud."

**A Family Jar.**

A man and wife were having a little family discussion. You know the kind.

"I didn't get much of a man when I married you," snarled the wife.

"Well, you don't expect a high class man to pick you out, would you?" was the gentleman's come-back.

And then the furniture began to fly.

**To Aid Digestion.**

"Be cheerful when you eat," said a doctor recently to an impatient, "and you will be able to enjoy anything."

The man who tackles a railway sandwich ought to approach it screaming with laughter.—Answers.

**Sick Headaches—**

are not caused by anything wrong in the head, but by constipation, biliousness and indigestion. Headache powders or tablets may deaden, but cannot cure them. Dr. Morse's Indian Root Pills do cure sick headache in the sensible way by removing the constipation or sick stomach which caused them. Dr. Morse's Indian Root Pills are purely vegetable, free from any harmful drug, safe and sure. When you feel the headache coming take

**Dr. Morse's Indian Root Pills**

Lethbridge, Mar. 10.—The Dominion government has advised W. H. Fairfield, superintendent of the experimental farm here, that an expert entomologist, Mr. Strickland, would leave Ottawa shortly to thoroughly investigate the cut worm evil in Southern Alberta.

The wool clip in Southern Alberta for 1912 exceeded that of 1911 by 100,000 lbs, in weight and \$100,000 in value. This year's crop is predicted to be 1,000,000 lbs. The sheep form a valuable and useful addition to the Alberta farm especially on account of the propensity for eating almost all kinds of weeds difficult of eradication because of our climatic conditions.

The Central Alberta Sunday School Association and the Christian Endeavor Church will hold its Annual Convention at Lacombe, Tuesday and Wednesday, March 18-19. A splendid programme is arranged.

**Suffered With Kidney Trouble For Ten Years.**

Those who have never been troubled with kidney trouble do not know the suffering and misery which those afflicted undergo.

Weak, lame or aching back comes from the kidneys, and when the kidneys are out of order the whole system becomes deranged.

Dean's Kidney Pills go right to the seat of the trouble, and make their action regular and natural.

Miss Mary Daley, Penfield Ridge, N.B., writes:—"I now take great pleasure in expressing myself for the benefit I have obtained from your wonderful medicine, Dean's Kidney Pills. Having been a sufferer with kidney trouble for the last ten years, and having spent hundreds of dollars in the so-called 'Quack' cures, from which I derived no benefit whatever, and after having been advised to try Dean's Kidney Pills, I at once purchased a box, and from the first obtained relief, and after having taken five boxes am now completely cured."

Dean's Kidney Pills are 50 cents per box, or three boxes for \$1.25, at all druggists, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

When ordering specify "Dean's."

**FOR SALE BY H. L. HIGGS**

**Now Is the Time**

**J. W. CURLEY, HOLDEN, ALTA.**

**Clearance SALE of Pianos and Organs**

**FOR THE NEXT THREE WEEKS**

We are going to offer our entire stock of high grade Pianos, and Player Pianos, and organs, at prices which ought to make a clean sweep of every instrument on our floor within that time.

There are TWO REASONS for this apparent outburst of philanthropy on our part. First, during the past few months we have accumulated a number of splendid Pianos and Organs, taken in exchange for Player and manual pianos, and we wish to dispose of these.

Second, our first lot of pianos and organs for spring have already been shipped from the factory, and another shipment is due to leave in a short time.

Owing to our serious lack of space, we must make room for these shipments before they reach us, and as there are, no doubt, a number of prospective piano buyers, who are just waiting for a chance to buy a piano for less than it is worth, we are going to give them such an opportunity during the next three weeks.

Remember we are not offering Pianos of the "package variety", but instruments built and guaranteed by the best manufacturers on this Continent.

All pianos insured against Fire, Tempest and Flood.

A few prices are quoted below.

- 1 Herald piano, used, splendid condition, New, \$800.00, now \$115.00.
- 1 Helix piano, used, splendid condition, New, \$375.00, now \$225.00.
- 1 Hallet & Davis (Boston) splendid condition, New, \$400.00, now \$275.00.
- 1 Sherlock-Manning, slightly used, New \$375.00, now \$235.00.
- 1 New Scale Williams (Nearly New) New \$450.00, now \$375.00.
- 1 Gerhard Heintzman (Nearly New) New \$500.00, now \$375.00.
- 1 Gerhard Heintzman (Entirely New) \$450.00, now \$385.00.
- 1 Chas. E. Co. Entirely New, \$375.00, now \$225.00.
- 1 New Scale Williams, \$600.00, now \$475.00.
- 1 Sherlock-Manning, \$500.00, now \$425.00.
- 1 Sherlock-Manning Player (88 notes), \$850.00, now \$75.00.
- 1 New Scale Williams (Nearly New), \$450.00, now \$335.00.
- 1 Bell Organ, in good condition, \$35.00, now \$35.00.
- 1 Sherlock-Manning Piano case organ \$100.00, now \$135.00.
- 1 Singer Sewing machine, \$55.00, now \$25.00.
- 1 One Goodrich Sewing Machine, 40.00, now \$23.00.
- 1 Drop Head 5 drawer machine (Nearly New), Now \$20.00.
- 1 Hornless Graphophone (Nearly New) \$20.00, now \$17.50.

10 p.c. off all Violins and Bows.

Easy payments may be arranged, even at these prices.

Don't miss this chance. You may not have another soon.

## HOW A COLT GROWS.

From Ungratified He Develops Grace and Beauty.

The development of a spindly-legged colt into a tall grown horse is an interesting process to watch. In "Horse Nine" the author describes an instance in this way:

And an unhandicapped colt he was His broomstick legs seemed twice the proper length, and so this you would hardly have believed that he could ever carry him. His head, which somehow suggested the lines of a bootjack, was set awkwardly on a crooked neck.

In time the slender legs thickened, the chest deepened, the barrel filled out, the head became less ungainly, as it took shape for these improvements, the colt's markings began to set. They took the shape of a saddle stripe, three white stockings and an irregular white blaze covering one side of his face and patching an eye. On chest and belly the weather sorrel came out rather sharply, but on the rest of him was that peculiar blending which gives the blue roan shade, a color unpleasant to the critical eye and one that lowers the market value.

## The Death of Kenith.

The death of Kenith, the half-bred colt of Scotland, was one of the most remarkable in all history—that is, if it can consistently be called a historical fact. According to the story, Kenith had killed a son and brother of the warlike Fenella. She for revenge caused Wilts, the most ingenious artist of the time, to fashion an automatic death dealing machine, a wonderful statue filled with hidden springs, levers, etc. When finished and set up, this "Fenella" was an admirable work of art. In its right hand it held a battle-axe and in the left an apple of pure gold, both set with diamonds and other precious stones. To touch the apple was to dare death. It being so arranged that one guilty of such vandalism would be immediately riddled by poisoned arrows shot from loopholes in the body of the statue. Kenith was invited to come and inspect the wonder, and, king-like, just as Fenella had hoped he tried to pick the precious imitation fruit. The moment his hand touched the lacinated level he was filled with poisoned arrows, dying where he fell.

## Now He Escaped.

Not long ago an English curate married his parishioners by marrying a widow considerably older than himself. The establishment was still greater when the cause was known. The curate had become engaged to a young girl whose frivolous conduct soon led him to regret the step. He offered a settlement for his release, but she refused. He endeavored in every way to break the engagement, but without success.

"Is there nothing I can do to escape this?" he exclaimed one day in despair. "Yes," remarked the girl's mother, who was present and who had been the prime mover in the marriage negotiations, "by marrying me."

The curate decided, if he had to marry one of the two, he preferred the mother and accepted her. The young girl soon married a wealthy stock broker.

## INDIGESTION OF COWS.

Loss of Cud is a Symptom Merely and Not a Disease.

Loss of cud is not a disease, but merely a symptom of sickness. When a cow suffers from indigestion or any other ailment which makes her chew little cud she naturally will stop chewing her cud. When the trouble is removed, the rumination will resume. Many people give artificial food, thinking to establish rumination by such means. This course is highly absurd, says the Rural New Yorker.

On general principles it is a safe rule of physic when you will not chew her cud and follow the purge by full doses of stimulants in warm water, thin gruel or flaxseed tea. As a physic a pound of epsom salts, half an ounce of ground ginger root and a cupful of blackstrap molasses shaken up in three pints of warm water will prove effective. Four ounce doses of whisky along with half a dram of fluid extract of nut vomica will serve well as a stimulant. Another good stimulant for cows is a mixture of equal parts of aromatic spirits of ammonia, pure alcohol and spirits of nutmegs ether (sweet oil). A dose of this is two ounces every three or four hours, well diluted with water, gruel or flaxseed tea. Rectal injections of scummy warm water are also useful when a cow is affected in the way here considered.

## Rest For the Milk Maker.

Whenever a cow has been so bred as to produce milk continuously, when fairly well fed it is better for the cow to feed her well and continue to milk her than to stop milking her. But it must be remembered that such cows are phenomenal cows and do not represent the common run of good (not bad) dairy cows. Hence, as a rule, it will be better to allow the average cow six weeks' rest between the milking period and the freshening.

## Farm Sanitation.

Piggens and stables should be kept sanitary. When not prevented they will breed in stables and piggens and cause much trouble. Keep them clean. This will be to the interest of the animals as well as for the health of the family.

## Electric Restorer for Men

Phosphorus restores every nerve in the body and vitality. It is proper tonic; restores the system; promotes sleep and appetite; makes you a new man. It is the only restorative that does this. It is the only restorative that does this. It is the only restorative that does this.

## SEND GRAIN SAMPLES TO C. P. R.

The Agricultural Branch, Department of Natural Resources, C. P. R., Calgary, which has been instrumental in placing a great number of farmers with good grain seed for sale in communication with purchasers, has still on hand several inquiries for good flax, barley and Marquis wheat seed—especially for flax. If farmers have good seed on hand for sale, they would do well to send samples as soon as possible to the agricultural branch as above, who will then transmit the samples to the engineers. It is not necessary to send a large quantity of seed grain; 8 ounces is sufficient; but it is imperative that in all cases the sample should be cleaned and free from weed seed and accompanied by a statement from the Government Seed Testing Laboratory, Calgary, (free) as to the germination of the seed.

## Wheat is Propagated Which Ripens 10 to 15 Days Earlier

Moose Jaw, Sask., March 9.—Speaking before the Canadian Club today, J. H. Grisdale of the Dominion experimental farm, Ottawa, said that the new variety of wheat which had been perfected, known as Prelude, was 10 or 15 days earlier than the Marquis, and of just as good quality, being superior to red flax and a fairly heavy cropper, although not quite so heavy a fielder as Marquis. Marquis wheat had meant the extension of the wheat line seven hundred miles north of the international boundary, and introduction of Prelude would make a further extension of three hundred miles. Cereals are now paying attention to barley, and it was hoped soon to send samples to the best farmers.

Gold-lined Tins.

## The Churches

### KNOX CHURCH

Regular services on Sunday at 11 a.m. and 7.30 p.m. Sunday School at 2.30 p.m.

### METHODIST.

Next Sunday Rev. T. McNeven B.A. of McDougall Church, Edmonton, will preach morning and evening. The pastor will spend the day at Pigeon Lake in connection with the opening of a new church there.

Rev. R. B. Steinhilber rendered good service last Sunday. Missionary offerings were taken, and an advance on last year's givings is anticipated.

The boys of the S. School are busy cleaning up the S. School rooms, and painting the same.

Miss Pike of Edmonton will assist in a concert to be given in the near future.

The Choir is working hard on Easter music. Special Services will be held next week on Wednesday, Thursday and Good Friday as well as Easter Sunday. The Pastor will be assisted by Rev. W. L. Bradley of Sedgewick and Rev. C. E. Pocock of the Presbyterian Church. See bills.

### IMMANUEL CHURCH.

Ebly Communion Sunday next 8 a.m. Matins and Holy Communion 11 a.m.  
Evangelism, 7.30 p.m.  
Sunday School and Bible Class 2.30 p.m.

On Wednesday March 13th at 7.30 p.m. a Lantern Service will be held, entitled "Death and After", illustrated by beautiful pictures in the Church. Three solos will be sung: "The Reaper and the Flowers", Mrs. H. J. Mont gomery, "Hold Thou my hand", Mrs. Walker, "The Crossing of the Bar", Mrs. Austin.

On Sunday evening, the Choir of Immanuel Church rendered the An them, "Behold the days come" very effectively. Mr. Wilkins singing the solo parts. Mr. Hatch presided with much ability at the organ.

Robert W. W. Alexander B. A.

### BAND CONCERT

The Band Boys are preparing to hold a concert, on March 28th. This concert will be given wholly by local talent and will consist of Solos, Duets, Quartets, in instrumental music besides vocal Solos, Duets and readings. The Band Boys are well organized with live and enthusiastic officers and we are assured of a good clean band this season. The inside workings of a band are something the average citizen takes little or no time to consider. In the first place the band is composed of working men clerks, bookkeepers, etc., men who are working on a salary and therefore they often find themselves in financial difficulties, for it takes money to maintain a band as well as any other organization, and it is therefore up to the citizens to give them their support. This can be done in several ways of which the first and most important is financially. They can also give the band their sympathy and encouragement. The latter costs but little and goes a long way with a struggling organization like a band. Let us pull with the boys and make the Citizens Band of Wetaskiwin one of the best in this part of the Province.

Ottawa, March, 1st. — "So long as I am minister of militia," said Hon. Col. Sam. Hughes, at the military conference Friday afternoon, "there will never be allowed in the militia, camps any wet messes, 'mild' or 'light' beer canteens. You will kindly not waste any time discussing this question further. It is settled."

### CARD OF THANKS

The undersigned wishes through the columns of The Times to sincerely thank the many friends for their many expressions of sympathy, and as assistance, during the illness of our daughter, Bessie.
